

## 2 Pole Molded Rubber Trailer Harness

This Trailer Connector is used to hook up CB radios and other accessories. Includes a plug on both ends.

PART NO.	REF. NO.	DESCRIPTION	POLE	WIRE LENGTH	GAUGE
42	474200	ACCESSORY HARNESS	2	12"	18

## 4 & 5 Pole Molded Rubber Trailer Harness

Commonly known as the "Flat 4-way" plug, this style Trailer Connector is most widely used for boat and utility trailers without electric brakes. The 5 pole has an added 16-gauge red wire as a fifth terminal for brake solenoid or other auxiliary use. Commonly used on newer boat trailers.

PART NO.	REF. NO.	DESCRIPTION	POLE	WIRE LENGTH	GAUGE
44P	474400	TRAILER HARNESS	4	12"	(3) 18GA (1) 16GA
44S	474600	VEHICLE HARNESS	4	48"	(3) 18GA (1) 16GA

45S	474603	VEHICLE END	5	48"	(3) 18GA (2) 16GA

## 4 Pole "Knockout" Molded Rubber Trailer Harness Kit

The "Knockout" is a 4-way polarized (female) Molded Trailer Connector with a weather-proof dust cover that snaps into the 1 1/4" license light hole on any 8 gauge pickup bumper. There is an optional mounting bracket for vehicles without license light holes in the bumper. The "Knockout" mates with most flat 4 Pole male connectors and eliminates the unsightly under-vehicle trailer connector hanger.

PART NO.	REF. NO.	DESCRIPTION	POLE	WIRE LENGTH	GAUGE
KO4448	474800	HARNESS KIT:			
		TRAILER HARNESS	4	8"	16
		VEHICLE HARNESS	4	30"	

## 4 Pole Molded Rubber Trailer Split Wiring Harness Kits

Used to wire stop, turn and tail lights on boat and utility trailers. Complete harness includes the tow vehicle plug, and a "wishbone" type 4-conductor harness designed to split at the trailer tongue and run down each side of the trailer. The polarized flat connectors with color coded 18 gauge wires meet SAE specifications.

PART NO.	REF. NO.	DESCRIPTION	POLE	WIRE LENGTH	GAUGE
3430Y	475450	HARNESS KIT:			
		TRAILER HARNESS	4	30'	(3) 18, (1) 16

## 6 Pole Molded Rubber Trailer Harness

This 6 Pole Molded Rubber Trailer Connector has color-coded wires for simple installation and is polarized to ensure a proper connection. The molded case offers all-around weather protection. This Connector is used on most tent trailers.

PART NO.	REF. NO.	DESCRIPTION	POLE	WIRE LENGTH	GAUGE
46P	475000	TRAILER HARNESS	6	12"	18
46S	475200	VEHICLE HARNESS	6	48"	18

## 6 & 7 Pole Molded Trailer Cord

These 6-way and 7-way Molded Trailer Cords have encapsulated terminals and wires to form a single weather-tight, noncorrosive assembly. This feature keeps the moisture out and allows for a more secure connection.

## Junction Boxes

The 7-Pole Junction Box provides a fast, simplified way of connecting wires from the trailer connector to the trailer wiring. It is an excellent area for trouble shooting, by offering a single connection point. The junction box is made of heavy duty plastic and includes fitted grommets making it weather proof and corrosion resistant. It can also be used as a 6-pole junction box as the box contains extra grommets for 6-conductor cable.

PART NO.	REF. NO.	DESCRIPTION
JB10-170	483020	JUNCTION BOX, 6 OR 7 POLE

## Vehicle-to-Trailer Wiring Systems

Redline has the *quick and easy* way to wire trailer lights.

No more *stripping, splicing or taping*.

Redline takes the work out of wiring a trailer to any car, truck or van, both domestic and import!

**For Connecting:** • Camping Trailers • Boat Trailers • Horse or Stock Trailers or any trailer!

*Diagram shows how the "T" connector works on trucks that have a plug-in taillight connection... usually located just behind the rear bumper.*

All you do is:

- (1) unplug that connector
- (2) plug the "T" connector into the circuit
- (3) and into the trailer

THE WIRING IS NOW COMPLETE. IT'S THAT SIMPLE!

## 2 Part Wiring System

### How It Works:

Most pickups have a molded connector that joins the wiring harness on the truck bed to the main wiring harness of the frame. This connector is located just behind the rear bumper.

- 1) simply *pull apart this connector*
- 2) *insert the "T" connector*
- 3) *plug it back together*
- 4) Now *plug in the harness* that matches the connector on your trailer

### How to Select a Trailer Wiring System:

1. Choose the Application that fits your vehicle.
2. Select the Wiring Harness that matches your trailer from the list below.

## Taillight Converters

Some of today's domestic and import vehicles have a new "3-wire" taillight system utilizing separate electrical circuits for turn signals and brake lights. This can cause a wiring problem when towing a trailer or being towed by a vehicle that has the conventional two-wire system. The Power Converter draws power for trailer lights directly from the battery protecting sensitive vehicle electronic systems.

PART NO.	REF. NO.	DESCRIPTION
TLC510	473500	3-WIRE TO 2-WIRE CONVERTER FOR TRAILER TOWING HAS BUILT-IN 4-WAY FLAT TRAILER CONNECTOR
TLC513	473515	POWER CONVERTER W/MOLDED FLAT 4-WAY, FITS MOST LATE MODELS

## Battery & Accessories

The 12 volt, AGM (Absorbed Glass Mat) battery is great for most high amperage draw applications. From hydraulic hoists, to power jacks, to electric winches, this battery will have you covered. The battery charger is great for any application that requires repeated recharging of a battery. The charger is a 3 stage, fully automatic charger, so you can plug it in and forget about it. Two LED lights on the front of the charger let you know exactly what the charger is doing.

With these accessories, you can mount your battery with peace of mind. Choose the battery box to keep your battery completely out of the elements, or the battery tray with crossbar and J-hooks. The battery box comes complete with a 2 piece box, and a strap to hold on the lid. The box will keep your battery out of the elements, which prevents premature terminal and wire corrosion, as well as keeping it out of sight. The battery tray will allow you to mount the battery on any flat surface, wherever you need it.

PART NO.	REF. NO.	DESCRIPTION

## Redline TRAILER REPAIR PARTS

### Trailer Connector Adapters

For towing trailers with 4-flat, 5-flat, or 6-round plugs, using a 6-round or 7-RV socket. Simply install the adapter between the trailer cord and tow vehicle plug.

PART NO.	REF. NO.	DESCRIPTION
ADP624	478490	TRAILER CONNECTOR ADAPTER, CONVERTS 6-WAY ROUND RECEPTACLE TO FLAT 4-WAY PLUG
ADP725RV	478525	TRAILER CONNECTOR ADAPTER, CONVERTS 7-WAY RV TO 5-FLAT
ADP764RV	478555	TRAILER CONNECTOR ADAPTER, CONVERTS 7-WAY RV RECEPTACLE TO 6-WAY & 4-WAY
ADP724RV	478500	TRAILER CONNECTOR ADAPTER, CONVERTS 7-WAY RV RECEPTACLE TO FLAT 4-WAY PLUG
ADP726RV	478550	TRAILER CONNECTOR ADAPTER, CONVERTS 7-WAY RV RECEPTACLE TO 6-WAY ROUND PLUG

### 4-way Flat Tester with Display

If you have a sales counter, then you should be selling the flat-lite tester. This 4-way flat tester features LEDs that display stop and turn functions. When used as a dustcap the flat-lite provides continuous monitoring of the trailer light functions while keeping dirt and road spray out of the vehicle connector. Sold in "fish bowl" displays of 50 pieces, the flat-lite will make a great impulse addition to your sales counter.

PART NO.	REF. NO.	DESCRIPTION
48678	479700	4-WAY FLAT TESTER W/LEDS FISHBOWL DISPLAY (50 PCS)

### Connector Brackets

The Steel Connector Brackets mount on the vehicle to secure the vehicle connector in place.
