Breakaway Kits and Accessories

These Electronic Breakaway Kits feature a rechargeable, sealed, maintenance-free battery and an optional charger, for trouble-free towing. Choice of 4 Battery Box Designs - (See Below)

- Compact Design
- Rechargeable, sealed, maintenance-free 12v Battery
- Dependable
- Wide operating temperature (-76°F to +140°F)
- Meets or exceeds D.O.T regulations

ACCESSORIES		
PART NO.	REF. NO.	DESCRIPTION
2018	420210	BATTERY CASE, POLYETHYLENE PLASTIC, A-FRAME OR JACK POST MOUNT
20000	420215	BATTERY CASE, POLYETHYLENE PLASTIC, LOCKABLE, FLAT SURFACE MOUNT, WELD-ON
2051	420220	BATTERY CASE, POLYETHYLENE PLASTIC, LOCKABLE, FLAT SURFACE MOUNT, BOLT-ON
UB1250	419246	SEALED LEAD ACID BATTERY, 12V, 5 AMP/HR FOR 1-3 AXLE TRAILERS
BA01-020	419245	REDLINE BATTERY, 12V, 5AMP/HR FOR 1-3 AXLE TRAILERS
BA02-010	419250	NYLON BRKY SWITCH W/METAL BRACKET, PKGD
BA02-020	419255	12V MAINTENANCE CHARGER FOR BRKY KITS, PKGD
2009	419800	BRKY SWITCH, ALL METAL W/SILVER CONTACT POINTS & BRASS PULL PIN
1024	420885	MAINTENANCE BATTERY CHARGER, 12V (WILL NOT FULLY RECHARGE BATTERY)
2024	420900	QUICK BATTERY RECHARGER, 12V (WILL RECHARGE BATTERY IN APPROX. 4-5 HRS)
2010	420000	BRKY SWITCH, NYLON CASE, WELDABLE METAL TAB, SILVER CONTACT POINTS, NYLON PULL PIN
2010A	420100	REPL NYLON PULL PIN & CABLE FOR 2010 BRKY SWITCH

BRAKE ACTUATING SYSTEMS

Brake Control Accessories

PART NO.	REF. NO.	DESCRIPTION
2180S	421425	PULSE PREVENTER PREVENTS INTERFERENCE BETWEEN 4-WAY FLASHER & BRAKE CONTROL
6560	418250	TEKONSHA TRAILER EMULATOR, 7-WAY RV TYPE CONNECTOR

Side-Post Mount Battery Adapter Kit

Allows direct connection to battery on vehicles using a side-post battery.

PART NO.	REF. NO.	DESCRIPTION
TA05-040	417910	SIDE POST MNT BATTERY ADAPTER KIT, CONTAINS ADAPTERS, NUTS & CONNECTORS (QTY 2)

Warner Hydraulic Utility Brake Control

The Warner Hydraulic/Electric Control 1300-76 has a displacement of less than .02 cubic inch, which meets vehicle manufacturers' requirements. It is adjustable for a wide range of vehicle brake system pressures, with low pressure sensitivity that assures immediate and smooth engagement of trailer brakes. The special design of the internal multiple resistor pack provides heat sinking and heat dissipation characteristics. Rated for up to 8 brakes, 30 amps.

PART NO.	REF. NO.	DESCRIPTION
1300-76	417000	BRAKE CONTROL, WARNER ELECTRIC, FOR 4-8 BRAKES

Warner Air Utility Brake Control

The Warner Air Utility Control interconnects with air brake systems of tow vehicles and automatically operates electric trailer brakes in synchronization with air brakes. It may be used in FMVSS 121 systems. The manual override feature operates trailer brakes only. The unit displaces only 2.8 cubic inches of air at 100 PSI. It is adjustable for a wide range of vehicle brake system pressures, with low pressure sensitivity that assures immediate and smooth engagement of trailer brakes. The special design of the internal multiple resistor pack provides heat sinking and heat dissipation characteristics.

PART NO.	REF. NO.	DESCRIPTION
1300-80	417400	AIR OPERATED FOR AIR BRAKE TRUCK TO PULL ELECTRIC TRAILER
